

JOHN S. EARLY, M.D.

SPECIALTIES

FOOT/
ANKLE

BIOGRAPHY

John S. Early, M.D. is a board certified Orthopedic surgeon specializing in the care of foot and ankle abnormalities. His interests range from the management of toe deformities to restoring weight-bearing function with complex reconstructions. His specialty is managing severe fractures of the foot and ankle and correcting neuromuscular imbalance caused by disease or injury. He is well versed in the use of internal fixation as well as complex external frames for limb reconstruction.

Dr. Early is internationally known and nationally sought after for his expertise in complex foot and ankle reconstruction. He has published numerous articles and book chapters on issues relating to foot and ankle care. He is co-director of a well-regarded foot and ankle fellowship that continues to train orthopaedic physicians in the subspecialty care of foot and ankle disease.

Prior to his association with Texas Orthopaedic Associates, he spent 10 years on the fulltime Orthopedic faculty at the University of Texas Southwestern Medical Center in Dallas as head of the Foot and Ankle division. Presently, Dr. Early holds the title of Clinical Professor of Orthopaedic Surgery at Southwestern Medical Center.
